EXPERIENCE

Data Analyst – Extern

Jun 2025 – Sep 2025

TrueBridge

Remote

- Conducted exploratory data analysis (EDA) on **10,000+** health records using Python and **Google Colab**, exploring government datasets to identify correlations between lead pipe infrastructure and health outcomes like kidney disease through statistical modeling.
- Built interactive dashboards using Power BI and applied **AI tools** like ChatGPT to generate insights, communicate findings, and support evidence-based policy recommendations in healthcare delivery.

Compensation Benchmarking Analyst – Extern

Jun 2025 – Aug 2025

PwC & South Asian Youth Action (SAYA)

Remote

- Benchmarked **20+** nonprofit salary datasets using Excel and Python to assess compensation equity.
- Created data visualizations, developing comprehensive analytical reports with actionable insights to support strategic decision-making and inform compensation strategy for PwC and SAYA leadership.
- Delivered recommendations to senior stakeholders to enhance data transparency and salary competitiveness.

Continuous Improvement Intern

May 2025 – Aug 2025

Phoenix Color

Hagerstown, MD

- Audited and standardized **30+** SOPs across teams, converting uncontrolled documents into controlled documentation to improve efficiency.
- Applied root cause analysis using the **5 Whys** framework to identify production issues, collaborating with teams to address quality gaps.
- Built a data visualization using Miro to track paper flow through manufacturing stages, presenting findings to the plant manager.

Web Developer

Nov 2024 – Jan 2025

Break Through Tech DC

College Park, MD

- Built a prototype accessibility web app with Flask, Python, and HTML/CSS, UI/UX for inclusive design.
